Qualifying product criteria shall be those that meet a U-Value requirement of 0.30 or less, and a Solar Heat Gain Coefficient (SHGC) of 0.30 or less as set forth by the *American Recovery and Reinvestment Act of 2009*\*

Joyce Manufacturing Company represents that the following Joyce Windows products, when manufactured with the appropriate options, meet the requirements as stated above.

\*Qualifications vary by series and window. This Certificate is intended to show that Joyce Windows are Eligible Building Envelope Components.
